

## Additional WIC Food Substitutions Approved Until May 31, 2020

1. Addition of different sized eggs: Medium, extra-large and jumbo (currently only large is Approved).
  - a. Temporarily approving organic
  - b. Removing least expensive requirement
  - c. List of UPC's that have been added in attached
  - d. Organic-cage-free eggs are NOT approved due to high cost
  
2. Addition of 2% milk to the WIC allowed Milk list
  - a. For prescriptions with whole milk, participants must continue to purchase whole fat milk
  - b. For prescriptions with fat free or 1%, participants must select lowest fat milk available
    - i. 2% milk UPC's have been added to the subcategory for fat free or 1%
    - ii. If the store has inventory of 1% or fat free, then participants may NOT purchase 2% milk; 2% should only be purchased if all other milk fat varieties are out of stock
  - c. Substitutions for container size are still in effect; i.e. purchasing 4 quarts if gallon size is not available
