To be eligible for RI Pre-K enrollment, children **must**:

- Turn 4 years of age on or before September 1, 2020; and
- Live in the community in which the Pre-K program is located.

A copy of birth certificate, proof of residency, and proof of family total income will be required upon enrollment. Family total income must be verified to match what is reported in this application in order for child enrollment to be completed.

Total family income is defined as gross cash income (income before taxes or deductions) and includes earned income, military income (including pay and allowances), veterans' benefits, Social Security benefits, unemployment compensation, and public assistance benefits.

Verification of all these elements may impact eligibility for the program, even if selected through the state supervised-lottery. As a result, please ensure all information is accurate before submitting an application.

Each classroom will enroll 18 to 20 children. Children will be assigned to classrooms in their community of residence either randomly through the lottery, or in order, based on a waitlist.

When completing an application for communities that have more than one RI Pre-K program, families must prioritize their top 3 choices. If selected, you will have the option of accepting that seat, or being added to the waitlist for another program within that community.

Completed RI Pre-K lottery applications should be returned to the program of choice.

Please ***do not*** submit applications to the RI Department of Education.

Only one application per site will be accepted. Application information and program selections will be entered into the online lottery system. Once uploaded a confirmation email will be sent. If you do not receive a confirmation email, please follow up with the program.

Applications will be accepted through 11:59 pm on Sunday, July 5, 2020.
